## SUMMARY

Eager Computer Science grad aiming for a Frontend Developer role to apply web tech knowledge and coding prowess, eager to grow with the Between team.

## WORK EXPERIENCE

### Internship

**Gladhand Technologies, Himachal Pradesh**

*April'23 – June'23*

- Developed Android app with Ionic, Angular, and Google Firestore.
- Learned mobile app and web dev, cloud DB integration.
- Enhanced skills in Angular, TypeScript.
- Applied modern frameworks in real-world project.

## PROJECTS

- **Portfolio**

Developed a fully responsive React Portfolio using SCSS for enhanced styling and design flexibility.

[Project Link](#)

- **Coin Insight**

Developed a React web app utilizing Redux and Chakra UI, integrated CoinGecko API for cryptocurrency data fetching.

[Project Link](#)

- **Attendance Monitoring System**

Developed an Android app with Ionic, Angular, and Google Firestore, enabling teachers to record attendance, students to access their records, and admins to manage users. The app boasts a user-friendly interface and real-time synchronization for enhanced attendance tracking.
